CME-1
Indoor Doorbell Chime

Efficient and Convenient Chime with Ease

- **AC-Powered Indoor Doorbell chime**
- **Configurable volume levels**

CME-1 is an Indoor Doorbell Chime used to make a doorbell sound when the it is being triggered. CME-1 allows users to hear the door chime anywhere in your home when someone presses your doorbell. You may plug the door chime into standard wall outlets and connect the door chime to your Climax devices. CME-1 can work with VDP-3, and it must work with a Climax Control Panel in order to sound a chime.

CME-1 employs reliable AC power supply to ensure the sirens deliver the necessary protection at all times. Selectable volume levels allow you to make adjustable based on your needs.

Features

- AC-Powered indoor doorbell chime
- Work with VDP-1 to make chime sound
- Plugs into any standard power outlet for quick and simple installation
- Adjustable volume levels
- LED as an indicator of system status
- Completely wire-free
