

ABLOY® EL368

Multipoint lock case for solid doors

Product description

EL368 is a multipoint lock case for solid doors. The lock automatically deadlocks when closed and has microswitches for indications. The lock can be opened from outside with a key and from inside by handle. The product is a multipoint lock with two additional locking points on top of the actual lock case. This adds an additional level of security to the product as the multipoint lock offers better support to the whole door without losing the ease of use compared to the single point lock cases. EL368 has microswitches for indications which are specified below. The product is suitable for interior- and exterior doors with medium traffic. EL368 is a RZ version of the EL366 meaning that it shares the same functionalities while being also suitable for Swiss cylinder standards. The product is EN179/1125 certified when installed according to instructions. This means that the locks is suitable for door environments where passing through in one direction must always be possible.

Overview of Advantages

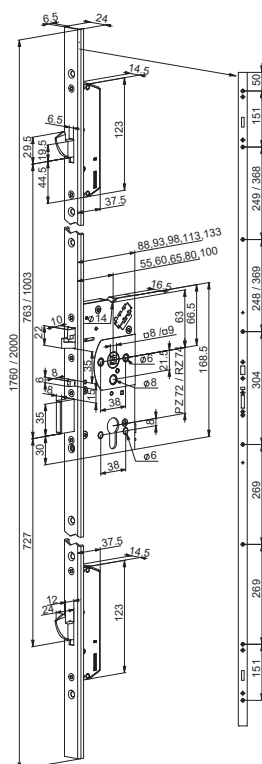

- Mechanical automatic deadlocking system
- Suitable for exit and panic exit doors
- Microswitches for indications
 - Bolt deadlocked
 - Lock open
 - Door status
 - Handle down
 - Cylinder used
 - Sabotage loop

Scope of delivery

- Lock case
- Operating manual

Ordered separately

- Strike plate (e.g. EA324 + 2 x EA306)
- Handle set (e.g. EH006/042)
- Cylinder(s) (e.g. CY321T)

Technical data

Handing	Reversible
Exit function	Yes
Latch	Cross latch
Backsets	55 mm / 60 mm / 65 mm / 80 mm / 100 mm
Spindle size	8 mm / 9 mm
Dead bolt	Yes, 20 mm
Input operating voltage	12-24 VDC
Rated current consumption	12 V DC idle 240 mA, max 550 mA 24 V DC idle 130 mA, max 300 mA
Relay capacity	Max. 0.5 A 30 V AC/DC resist. 10 W
EN14846:2008	3 S 5 D - L 61 NPD
EN179:2008	376(O/B*)1342AB
EN1125:2008	376B1321AB
