ACT Web

ACT
Access Control Technology

ACTWeb is a web based interface that allows you to manage the basic functions of the access control system, including user lists, reports and enrolling users.

ACTWeb has been developed for use in combination with the ACTWin pro PC application (2.5 or later).
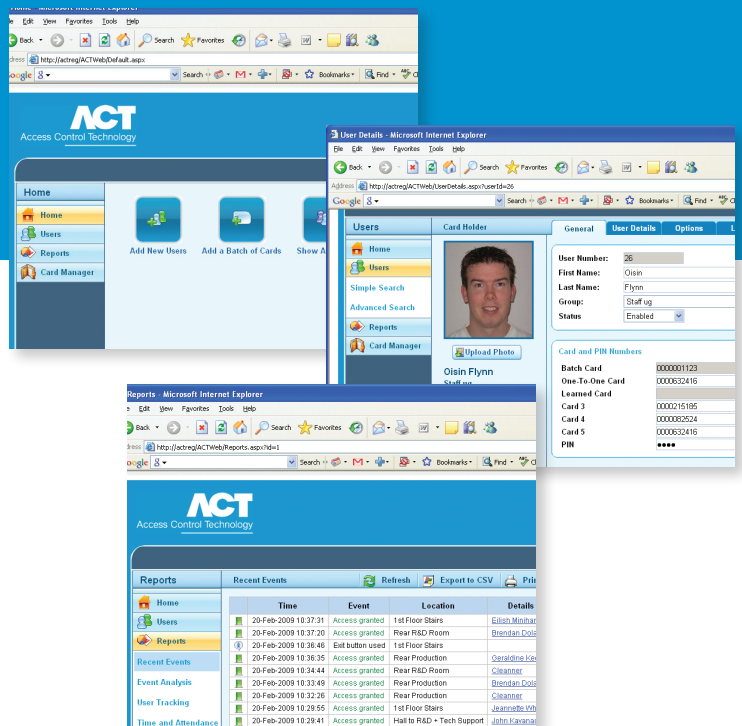

Main Features

- Web based interface

- user friendly, intuitive software

- 24 hour access to your software from Internet Explorer

- contains a comprehensive online help system

- does not require a high spec'd PC

- maintenance and software updates are done from the server and not on users workstations making it easier to deploy and manage

- varying user rights & restrictions

PC Requirements

Call ACT Technical Support for minumum PC requirements
