The ADTT16E Touch Tracker Advanced Dome Controller, ergonomically designed for ease of operation, is the perfect controller for any small surveillance application. This programmable video controller allows you to control up to 64 SensorNet programmable domes, including both indoor and outdoor versions of SpeedDome® Ultra and SpeedDome Optima. The controlstick provides pan/tilt control of the currently selected dome. Buttons for lens zoom, focus and iris functions are located near the controlstick enabling one handed operation.

Standard features include programming/control of up to 96 presets and three patterns per dome. The ADTT16E can be used as a standalone unit for control of a single video input or several inputs on dedicated monitors. In addition, with Multivision Quest multiplexers, the operator can remotely freeze an image, digital zoom, as well as run multiplexer sequences and select the cameras to display in each window of a multi-image display.

The system can manage up to four simultaneous dome alarm inputs; this ensures that all alarm events are recognized, even if more than one alarm occurs simultaneously. When used in conjunction with a multiplexer, Intellex Digital Video Management System or EDVR the controller can define and display a sequence of up to sixteen video inputs on a single monitor. The inputs can also be displayed in multi-screen format. The ADTT16E supports ten languages and easily integrates with Intellex for dome control.
