

EZ-One Pro

PC Based Control Systems

Complete system, supports from 1 to 8 doors

The **EZ-One Pro series** are complete access control systems designed for fast and easy installation. EZ-One Pro systems can control from 1 to 8 doors. Up to 4 APN-35 can be daisy chained together to form an 8 door system. All required components (controllers, readers, cards, software, UPS, backup batteries & enclosure) are included. **The installer only needs to provide electrical locking devices and cabling.**

The programming is done via the **easy-to-use ASW-35 software** that can reside in the installer's laptop or end-user's PC. The software provides cardholder management, configuration, on-line event display and event reports. In addition to standard reports of alarm and access events, the ASW-35 software generates **Attendance reports** - an important feature to many users, as well as an access summary report.

The **EZ-One Pro** system includes one APN-35 controller and two readers. This system is capable of controlling one door with IN and OUT readers or two doors with IN readers only. Daisy chain additional EZ-One Pro kits together for up to 8 doors.

EZ-One Pro features:

- up to 8-door control
- 4-doors with entry/exit readers and anti-passback (4 APN-35)
- Computer controlled operation
- RS-485 interface for PC connection
- Up to 2000 cards and PINs (keypad required for PIN operation), 10 time zones (2 intervals per time zone) / 8 access levels / 40 holidays
- Non-volatile memory for database storage
- Card only, card and PIN, card or PIN, facility, locked, unlocked reader modes
- Reader modes automatically changed by time zones
- Up to 3750 off-line events storage per controller

- Door contact, reader tamper, enclosure tamper and auxiliary alarm monitoring
- Anti-passback and soft anti-passback
- 2 auxiliary outputs controlled by time zones (requires additional relay modules)
- Programmable password/Secondary password for activating auxiliary outputs

ASW-35 Software features:

- On-line event display.
- Selective event reports by door, card, date, time.
- Attendance reports.
- Access summary reports.
- On screen door controls.

EZ-One Pro systems are available with **Motorola, Keri, HID** proximity readers or **Apollo** mag stripe readers with integral keypads.
