# Toughness and technology work together

SMARTair® *i-gate*, the new electronic IP68 padlock

ASSA ABLOY
Opening Solutions

Experience a safer
and more open world

# Add electronic access control
# - offline or wirelesss online - to
# almost any non-standard opening

For exterior, non-electrified gates and fences, interior closets, cupboards and cabinets and anywhere currently secured by padlock.

**Real-time control and monitoring**
Managed by any of the SMARTair systems, the new SMARTair *i-gate* padlock can be integrated, controlled and monitored, in real time, from the TS1000 software.

**Compatible with all forms of intelligence**
The SMARTair *i-gate* padlock offers a new way to open up — using a smartphone and the Openow mobile app as well as RFID credentials. RFID reader with LED (blue/red) shows different warning signals.

**IP rating of 68: dust and liquid resistance**
The SMARTair *i-gate* padlock is a device improved in every way. Its stainless steel shackle makes it more resistant to attack. The external black cover is completely watertight and protects against any weather.

**Easy, drilling-free installation and maintenance**
Quickly swap any existing padlock with the easy to install, battery powered (60.000 cycles) *i-gate* padlock.

**SMARTair includes:**

**Compatible with:**

MIFARE™ DESFire™   MIFARE™ CLASSIC   iCLASS by HID   SKIDATA® KUDELSKI GROUP   Bluetooth
