HD Multisensor Dome Cameras

Avigilon offers a broad range of high definition cameras – from 1-5 MP and 4-7K (based on horizontal resolution) – and are available in a variety of formats, including dome, panoramic and fixed. Whether it's a small storefront that requires a few cameras or a large complex system requiring complete coverage of numerous areas, you can trust that you're getting an exceptional solution for your security needs.

The innovative HD Multisensor dome camera is just one way Avigilon can help provide the very best monitoring and protection.

Avigilon's HD Multisensor dome camera offers unsurpassed image quality and flexibility with multi-directional scene coverage. Available in 3 (9 MP) or 4 (12 MP) sensor configurations, each equipped with a remote zoom and focus lens, one HD Multisensor dome can replace a PTZ or multiple fixed cameras, requiring just a single installation with one ethernet cable and one camera license. Avigilon's innovative camera track design allows three or four individual camera gimbals to be individually positioned in flexible configurations to meet challenging field of view requirements. Available in 3 easy to install configurations; in-ceiling, and IP66 and IK10 rated surface mount and outdoor pendant, the HD Multisensor dome camera is ready for all environments.

KEY FEATURES

 3×3 MP (9 MP) or 4×3 MP (12 MP) 1/3" Progressive scan sensor

Each lens is a 3 MP 2.8-8mm remote zoom and focus lens

H.264 and Motion JPEG compression

100dB Wide Dynamic Range performance

ONVIF compliant API

Automatic exposure control and iris control

Automatic removable IR cut filter for IR sensitivity at night

Power over Ethernet, 24 VAC or 24 VDC power input

External microphone and speaker support for two-way audio

External I/O interface for connecting alarms and relays

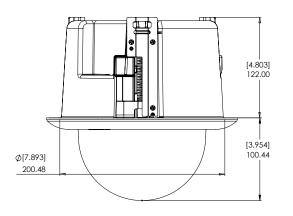

Supports broad environmental conditions for challenging outdoor installations.
