

Rx55X

Advanced Multiple Protocol DC Receiver

Application Notes

The Rx55X MK5 is designed to control variable speed DC pan & tilts heads from BBV and Baxall up-the-coax, and a range of RS485/422 telemetry protocols. The receiver offers system designers the option of using traditional P/T/Z heads for applications where it is necessary to specify a range of camera / lens combinations.

Features

- 230Vac / 110Vac input switch selectable operation; 24Vac is a factory fitted option
- 32 full preset scenes are programmable
- On-screen display for remote configuration and menu programming
- LCD display for local configuration and menu programming
- Privacy Zones
- 8 local alarm inputs and one alarm output to minimise cabling requirements
- Built in remotely adjustable launch amplifier provides cable loss compensation for optimum picture quality
- Auxiliary output voltage switch selectable; Supply voltage / 24Vac
- 12Vdc 500mA camera supply provided
- Iris override provided
- Inching function provides fine lens control
- PAL / NTSC compatible
- Mounted in a weather proof enclosure
- Simple to install.

Rx55X

Technical specification

Power supply	<ul style="list-style-type: none"> • 230Vac / 110Vac; 24Vac factory fitted option
Max load	<ul style="list-style-type: none"> • 5A @ 230V
Max current draw	<ul style="list-style-type: none"> • 100VA assuming 2A each for pan and tilt
Fuses	<ul style="list-style-type: none"> • F1 Secondary Automatically resetting thermal fuse • F2 Primary Fuse TR 3.15A • F3 Auxiliary Fuse 5A T 20mm
Outputs	<ul style="list-style-type: none"> • Linear 0-24Vdc output for pan and tilt motor drive for 4 wire pan/tilt heads • Switched 24Vdc output for pan and tilt drive • Red and green LEDs show direction and speed for each axis
Features	<ul style="list-style-type: none"> • On-screen display for remote configuration and menu programming • LCD display for local configuration and menu programming • LED readout for continual system status • Video launch amplifier provided with cable length adjustment • 12Vdc camera power outlet provided • Colour coded outlets – live, neutral and earth, low voltage
Video input	<ul style="list-style-type: none"> • 1V p-p 75 ohm terminated input via BNC socket
Video output	<ul style="list-style-type: none"> • 1V to 4V p-p 75 ohm impedance via BNC socket
Auto iris output	<ul style="list-style-type: none"> • Returns to original setting 15 seconds after key release. Level programmable from either local or remote controller
Lens drive	<ul style="list-style-type: none"> • Inching speed selectable via menu between 0-12V. One second inching built in. Provides drive for zoom and focus. Each lens drive carries red and green LEDs to indicate direction and drive voltage
Preset Positioning	<ul style="list-style-type: none"> • Inputs are provided for pan, tilt, zoom & focus preset feedback pots. These are 10 bit resolution for zoom & focus, 13 bit for pan & tilt. Up to 32 full-scene presets can be stored within the receiver i.e. pan, tilt, zoom, focus for each position. (16 full-scene presets in BBV & Baxall up-the-coax telemetry)
Installation	<ul style="list-style-type: none"> • Supplied in a molded polycarbonate box. The box has mounting holes allowing easy installation.
Dimensions	<ul style="list-style-type: none"> • Width: 380mm Depth: 190mm Height: 130mm
Weight	<ul style="list-style-type: none"> • 3.9Kg
Rating	<ul style="list-style-type: none"> • IP56
Temperature range	<ul style="list-style-type: none"> • -10C to +40C
Colour	<ul style="list-style-type: none"> • Plastic case in RAL 0735

Supported Protocols (V6 software)

BBV422,	Dennard, RS485
Baxall Standard & Alternate Up-The-Coax	Meyertech,
BBV 20mA (via additional 20mA Converter)	Molynx Type – D RS485
Philips RS485 (Bi-Phase via optional card),	Pelco P,
Coe RS485	Pelco D
Sensormatic/AD RS422	Vicon RS422
