For regulations and high bandwidth, Nova Storage delivers. The Nova series has high scalability making expansion efforts easy. The Nova is the perfect fit for most projects.

The BCDVideo Nova Series is designed specifically for enterprise IP video surveillance applications. The BCD215-NAS is a network attached storage array that can be mated to any Nova Server to expand the storage. The Nova Storage solution supports 12G SAS technology enabling higher bandwidth than traditional SATA-based solutions. The higher the bandwidth, the more high resolution cameras you can have per server. Nova Storage - making it easy.
