VERTICAL MARKETS:

The Orion Server Series offers unparalleled reliability for their price. This server series offer 24/7 surveillance grade drives, engineered specifically for surveillance and able to withstand the rigorous requirements of the security market. The BCDM02 is a mini server, with a capacity of up to 1TB, and can support up to 16 cameras. The Orion Server Series has just what you need for your projects, without all the frill.

Made specifically for your budget priority projects. The Orion Series fits best with under 60 camera, lower bandwidth security projects like retail, financial, and corporate verticals.
