

# **MIC Series Power Supplies**

A full range of MIC Series power supply units (PSUs) from Bosch Security Systems provide all connections for power, telemetry and video for the MIC series range of PTZ cameras. These PSUs ensure that MIC cameras can be installed in a variety of locations, including low voltage and mobile applications.

Each power supply has UL, CE, and FCC approval, is rated to IP65, and comes in a selection of input voltages with variants for MIC Series cameras with and without integrated Infrared illuminators. The PSU housing also has slots for optional cards, such as the 8-channel alarm card including washer pump drive. Certain PSUs have extra functionality built-in as standard.

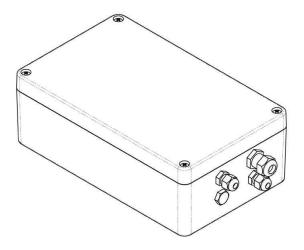

## **Certifications and Approvals**

Region	Certification	
Europe	CE	EC Declaration of Conformity
USA	UL	60950-1, 2nd Edition:2007
	FCC	CFR 47 FCC Part 15:2009 Class B
Canada	CSA	CAN/CSA-22.2-No. 60950-1-07

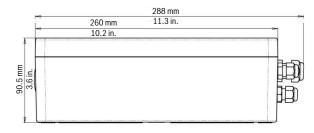

- Provide all connections for power, telemetry and video for the MIC series range of PTZ cameras.
- ► Weather-resistant, cast-aluminum IP65 enclosure.
- Weather-proof 1/2-in. NPT, M16, and M12 cable glands for connection of power, video, telemetry and ancillary equipment
- Integrated header for addition of ancillary cards such as the MIC alarm card, washer pump drive card or biphase converter card (non IR power supplies only)
- Integrated washer pump drive with test function (IR power supplies only)
- Integrated four-input alarm terminal (IR power supplies only)
- Ground isolation and termination to control video grounding and to prevent ground loops.

Electromagnetic Compatibility (EMC)	Complies with FCC Part 15 and ICES-003 regulations
Product Safety	Complies with UL (UL 2044), CSA Standards (CSA Standard C22.2 No. 1-98), and CE
Environmental Protection	IP65
