nova

bpt

Nova: video entry control is at home everywhere

The greatest technology is the smallest of packages

Nova by **bpt** is the new recessed audio/monitor station, so compact it fits in the standardized rectangular embedding boxes. It hardly takes up any space with its extremely slim lines, and can be framed with the standard cover plates meaning it blends in effortlessly.
Compatibility with system 200

Perfectly compatible with all the catalogued system 200 monitors and handsets (with the exception of the intercom versions).

Quick and easy assembly

The unit is recessed in standardized rectangular embedding boxes.
Top-quality audio and video

The active matrix LCD monitor, with its sharp, bright images, is crystal clear even at a distance and in brightly lit rooms. The twin-channel receiver version assures clear and natural sound reproduction.

The video entry monitor

The small video entry monitor is created with a combination of Nova audio and video modules fitted in a double embedding box or in two separate single embedding boxes.

LCD monitor

Camera scroll control

Stair light

Colour monitor

Assembly possible in two single embedding boxes.

Video entry control installations require the use of the NC/221 twin-channel receiver module, which also enables mixed installations to be created (video entry handsets and handsets).
The twin-channel receiver

Excellent audio quality takes your voice to every corner
of the home.

1 x NC/220 (twin-channel receiver module) 1 x A/200R (or N) (power supplier) 1 x GVV/200 (twin-channel control unit) 1 x HCP/1 (audio entry system panel) 1 x HBT (surface housing) or 1 x HTS (embedding box and chassis) 1 x HA/200 (audio module) 1 x NSI/3M (embedding box) or 1 x NSI/3PL (embedding box) 1 x NS/3V (support for plate) 1 x NPT/3V (engineering resin plate) or 1 x NPP/3V (metal plate)	2 x NC/220 (twin-channel receiver module) 1 x A/200R (or N) (power supplier) 1 x GVV/200 (twin-channel control unit) 1 x HCP/1 (audio entry system panel) 1 x HBT (surface housing) or 1 x HTS (embedding box and chassis) 1 x HA/200 (audio module) 1 x KHPS (single button) 2 x NSI/3M (embedding box) or 2 x NSI/3PL (embedding box) 2 x NS/3V (support for plate) 2 x NPT/3V (engineering resin plate) or 2 x NPP/3V (metal plate)	3 x NC/220 (twin-channel receiver module) 1 x A/200R (or N) (power supplier) 1 x GVV/200 (twin-channel control unit) 1 x HCP/1 (audio entry system panel) 1 x HBT (surface housing) or 1 x HTS (embedding box and chassis) 1 x HA/200 (audio module) 2 x KHPS (single button) 3 x NSI/3M (embedding box) or 3 x NSI/3PL (embedding box) 3 x NS/3V (support for plate) 3 x NPT/3V (engineering resin plate) or 3 x NPP/3V (metal plate)

**An audio entry control installation with twin-channel receivers only require the use of the NC/220
or NC/221 module without distinction.**

Nova has a finish to fit the surroundings

Compatible with the standard cover plate
systems, Nova adapts to the style of the system,
becoming an integral part of it.

Installation in a single box

Monitor NVM/200

NSI/3M or NSI/3PL (96x59x49,8 mm)

Adaptor included
in the NVM/200
package

Frame included in
the NVM/200 package

NVM/200

Plates NPT/3V
or NPP/3V
(in bianco o grigio)

Audio unit NC/220 or NC/221

NSI/3M or NSI/3PL (96x59x49,8 mm)

Included in
the NC/220 or
NC/221 package

NS/3V frame

NC/220 or NC/221
Plates NPT/3V
or NPP/3V
(in bianco o grigio)

BPT distributes the surround plates manufactured by VIMAR, series IDEA RONDO' in white and grey anthracite which are made of metal and engineering resin.
VIMAR's retailers distribute the surrounds pictured.

Installation in a double box

NC/221+NVM/200

NSI/6M or NSI/6PL (170x59x49,8 mm)
