

MDC-3ZBS

ZigBee Mini Door / Window Contact

Ideal Choice to Guard Your Doors and Windows

- Discreet & Slim Design
- OTA Firmware Update Capability
- Wireless Flexible Installation

The MDC-3ZBS is a discreet ZigBee miniature door sensor that monitors the irregular opening / closing of doors and windows. The MDC-3ZBS is particularly small, which allows for highly flexible and virtually invisible installation, allowing users to stay in touch, in control, and provide a peace of mind.

Integrating the MDC-3ZBS into a security or home automation system will allow users to create scenes and automatically control lights and electronic appliances when doors or windows open and close. The MDC-3ZBS features a pre-inserted battery with minimal power consumption, and transmits supervisory and low battery signals to check system integrity. It also comes with Over-the-Air firmware update capability. The MDC-3ZBS is compatible with other manufacturers' ZigBee systems and can be integrated into new or existing ZigBee systems.

Technologically advanced and slim design, this mini door/window contact will stand out as a broadly applicable device, ready to make users home or business safer and smarter.

Features

- Monitors the opening / closure of doors and windows
- Highly extensive and reliable communication range
- Enables security and home automation systems scene creation to turn on/off appliances accordingly.
- Minimum power consumption
- Discreet, small, sleek design
- Over-the-Air (OTA) firmware update capability
- Tamper protection to prevent unauthorized removal
- Mounted on door or window frames
- Supervisory signals ensure proper operation
- Low battery detection
- Suitable for residential and commercial security
- Compatible with other manufacturers' ZigBee systems

Specifications

MDC-3ZBS

Communication Protocol	ZigBee Home Automation 3.0
Frequency	2.4GHz
Power Source	3V, CR2450 lithium battery x 1
Battery Life	10 years*
Operating Temperature	-10°C to 45°C (14°F to 113°F)
Operating Humidity	Up to 85% non-condensing
Dimensions	58mm x 28mm x 10mm (body) 25mm x 15mm x 7mm (magnet)

*Note: Actual battery life may vary due to device settings, operating environment and usage activity.
