ROBUST KEYLESS ACCESS

KL1200
electronic

For more challenging environments, the KL1200 includes all the benefits of the KL1000 but is tougher and more robust.

With additional programming features, stainless steel buttons, dual fixing points and increased battery life, the KL1200 provides enhanced benefits to facilities managers looking to simplify access control without the need for keys. Quick, tough and cost effective.

FUNCTIONS

Private Function
This is the default function and is already pre-programmed in new locks. This function is used where the same code will be repeatedly used, e.g. an employee with the same locker/drawer in the workplace.

Public Function
In this function the KitLock operates with a single User Code. The user enters a personal four digit code, this locks the lock. The same code is entered once only to open the lock before automatically being erased and ready for the next user. This function is used for short term, multiple occupancy applications, e.g. hot desking in an office or a locker in a sports club.

LED indicators for entry / no entry / low battery

Stainless steel buttons and audible keypad

Vertical or right hand models available

Swivel handle reveals # bar used for programming

PRODUCT DIMENSIONS

143mm (5⁵/₈")
37mm (1⁷/₁₆")
41mm (1⁵/₈")

Code Management
KL1200 has four code levels available:

- 8 digit Master Code
- 8 digit Sub-Master Code
- 4 digit User Code
- 6 digit Technician Code

The KitLock is supplied with two factory set codes:

- Master Code
- User Code

Before installing change the Master and User Code by following the Programming and Operating Instructions.

Easy Installation
Everything you need is included to ensure a quick and easy installation.
