

Convision S1

Operating systems	Windows, MAC, Unix, Linux thru internet browser
Internet browser	e.g. Netscape Navigator 4.x, Microsoft Explorer 4.x
Internet browser features	HTML 3.2, HTTP 1.0, Java Script 1.2, Java 1.1.8
Video input	BNC connector, adapter cinch on BNC
Video images	max. 30 images/s MPEG, max. 8 images/s JPEG, typical image sizes 4-128 KB
Resolution	huge size 704x576 pixel, full size 352x288 pixel, half size 176x144 pixel
Image sequences	MPEG stream, Server Push for JPEG, Java Applet for JPEG hugesize 2 images/s JPEG, fullsize / halvesize up to 25 images/s MPEG
Internet protocols	TCP/IP, PPP, HTTP server, FTP server, FTP client, SMTP client time or event controlled FTP upload, time or event controlled email dispatch incl. video images
Programming	configurable thru CGI parameters: image resolution up to 704x576, image data size 4-128 KB, image sequence
Security	password protection
Network	10/100 Mbit/s autosensing, Ethernet, TCP/IP protocol
IP address	IP address can be set, IP Set-Up program supplied with delivery
Serial interface	RS232 with max. 115 Kbit/s, mini DIN 8-plug
Software updates	flash memory, firmware free under www.convision.de
Inputs	2 inputs for e.g. movement detectors, photoelectric sensors
Housing	interior installation, table or wall installation
Power supply	external plug power supply (GS, CE, UL, CSA)
Temperature	0 - 50°C
Authorizations	EN50081, EN50082
Dimensions	width: 165 mm, height: 36 mm, depth: 210 mm
Weight	670 g

The Convision S1 has been specially developed for live image communication in LAN. Only an internet browser is necessary to view the images. Installation is simple and fast to carry out.

The Convision S1 is a complete stand-alone video webserver. This system can be individually extended - according to the purpose for which it is used - you can add the optimal external camera.

- MPEG video streaming
- live video for the website
- plug and play
- independent video webserver
- between 25 images/s and 1 image/day can be selected
- new image on request
