

The CPSU range of power supplies are specifically designed for the CCTV market. These linear power supply units are fully regulated and the range includes 12V DC 500mAmp, 12V DC 1Amp, and 24V AC 1Amp.

The power supplies come with a 3 pin moulded UK style plug top, two mount lugs for easy fitting and a low voltage flying lead for connection to your equipment.

Ordering Codes:

CPSU/12/0.5A/II 12V DC 500mAmp Maximum Load CPSU/12/1.0A/II 12V DC 1Amp Maximum Load CPSU/24/1.0A/II 24V AC 1Amp Maximum Load

46(W)x25(H)x94(D)mm

The CVPSU power supply is a switch mode unit and can be installed in most locations, because of its compact design.

The power supply comes with a 3 pin moulded UK style plug, four mounting lugs for easy fitting and a low voltage flying lead for connection to your equipment. The flying leads are coded red for positive and black for negative for easy identification.

Ordering Codes:

CVPSU12 12V DC 1Amp Maximum Load

For ease of installation, the units have either 4 or 8 individually fused outputs

These boxed power supplies are the perfect choice for installations where you
