Residential and Small Business Solutions

ADEMCO microtech

A Honeywell Company

Galant Range

The Galant intruder alarm panel uses flexible technology to provide the ideal solution for residential and small commercial properties.

Benefits

- 3 setting options for user convenience – FULL set, PART set and NIGHT set
- fob/card setting and unsetting options - no need to remember code

Wireless installation options

- A less intrusive installation option
- No additional cabling to protect detached buildings and mobile units
- Use of 868MHz frequency with FM transmission provides a strong, clean signal on an uncongested band
- Hybrid expansion options – wired and wireless

Features

- 12 detection zones, expandable to 36
- 3 setting options for user convenience – FULL set, PART set and NIGHT set
- Up to 8 different user codes for family or staff members
- Up to 4 keypads per system
- Choice of keypad by functionality:

  - ICON
  - FULL TEXT
  - PROXIMITY

- Up to 8 keyfobs or keytags for remote setting and unsetting
- RF fob one touch set/part set/unset
- Proximity tags for easy set/unset without using codes

Maintenance and operational

- 250 event alarm memory for recording system time and date stamped activation details – including full text reports
- Digital communicator sends activation information to the Alarm Receiving Centre (ARC)
- Supports computer based, remote servicing package that enables the system to be checked, serviced or reset without the need for an engineer to visit the premises

Panel + 6160 Keypad or KeyProx with wireless receiver option

Panel + LCD Keypad with wireless receiver
