PROTOCOL INTERFACE TRANSLATORS

Honeywell's protocol interface translators offer a truly integrated video and data capture system by transporting data captured from a point-of-sale device to a recording system for viewing, recording, and searching.

AVBPITPOS Series

Protocol Interface Translators with POS Filtering

Honeywell's AVBPITPOS Series of Protocol Interface Translators allow single and multiple POS device integration with Rapid Eye™ through a single data communication port on the Rapid Eye™ remote unit.

ADI Ordering Information
