CCTV Keyboard

IndigoVision's CCTV Keyboard connects to a PC running Control Center and allows operators to control dome cameras anywhere on the IP network. The Control Center Virtual Matrix provides dome protocol translation, which allows the CCTV Keyboard to control most 3rd party PTZ cameras including Pelco, Panasonic and Philips-Bosch.

Keyboard Features

- [ ] Desktop keyboard with 3-axis joystick (pan/tilt/zoom)

- [ ] Full variable control of speed domes - speeds adjust in proportion to zoom position

- [ ] Automatic Dome Protocol Translation (through Control Center software)

- [ ] 1 x RS232 port (RJ11 connector) for connection to PC running Control Center Virtual Matrix software (cable supplied)

- [ ] Camera, monitor and preset keys

- [ ] Focus, auto-iris, auto-sequence, tour keys

- [ ] Preset keys

- [ ] Full control of Control Center Virtual Matrix

- [ ] Color: Cool grey
