

IQeye PRO LINE

IQeye HD1080p Series HD Megapixel High-Performance Camera

PRODUCTS

True High-Definition Video

Enjoy true HD quality and high performance at 30 frames per second with the IQeye HD1080p Series. Crystal-clear images, network reliability and compression/bandwidth management deliver unparalleled video.

Simultaneous H.264 and MJPEG Streams

Simultaneous streaming of both H.264 and MJPEG compression enables you to optimize for any application.

True Day/Night Surveillance

The IQeye HD1080p Series offers TRUE day/night performance for the most challenging environments. It's the best choice when you need clear crisp HD video in low light. The camera automatically senses low-light levels and switches from color to black and white.

Analog Out

The IQeye HD1080p features analog video out for easy focusing.

IQeye HD1080p network cameras deliver spectacular high definition progressive scan video for your surveillance, marketing and web attraction applications.

Available in standard and day/night configurations, the IQeye HD1080p cameras offer cutting edge H.264 performance in a classic, full-featured, ruggedized camera package. Its energy efficient design is PoE ready and can also be powered directly by AC or DC for redundancy. Its analog video out makes focusing simple and the on-board storage is perfect for stand alone applications or as back-up for enterprise-wide network video recording systems.

Camera weight (without lens): 1.3oz (369g)

IQeye PRO LINE

IQeye HD1080p Series

FEATURES

- 1080p (1920 x 1080) Resolution @ 30 fps
- MultiStream Low BW + Hi Resolution Streams
- Simultaneous H.264 and MJPEG Streams
- Analog Out for Focusing
- On-Camera Recording with SDHC Card
- <0.05 Lux IR Sensitive (Day/Night Series)
- IEEE 802.3af - Power-over-Ethernet
- <4.2 Watts Power AC/DC
- Class 2 PoE
- On-Camera Motion Detection

IQrecorder™

Available with every IQeye PRO LINE camera, IQrecorder enables you to record and playback crisp, clear IQeye Resolution™ images using affordable network storage with no client software. User-friendly features include simultaneous playback and live viewing, day-by-day scheduling, and playback interface with DVD-like controls.

On-Camera Recording

The IQeye HD1080p Series features an SDHC card for on-camera recording that can be used as back-up recording or as a stand-alone system using IQrecorder™ on camera recording/playback software.

IQaccess™

IQaccess on-camera intelligent software turns any IQeye PRO LINE camera into a basic access control system or remote attendant/notification system. Video alert window pops up in every IQaccess enabled PC when triggered and lets the first responder open the door, activate the alarm or control other devices.
