

The KP-2500 Keypad

Technical Specifications

Power.....	5 VDC / 12 VDC (Jumper setting)
Output.....	BCD
Keypad.....	12 digits tested over 1.1 billion cycles. All weather, impact, and vandal resistant
Operating temperature	-40°C to 70°C (-40°F to 158°F)
LED.....	Red, green
Piezo electric.....	Beeps with each keypress
Finish.....	Solid stainless steel construction
Cable type.....	12 conductors #18 AWG (Belden ref #8466)
Cable distance.....	150 meters max. (500 feet)
Dimensions.....	13.01 x 8.57 x 1.1 cm (5 1/8"H x 3 3/8"W x 7/16"D)
Weight.....	0.34 Kg (0.75 lbs)
Certifications.....	UL, CE, FCC

The **KP-2500** is a solid stainless steel weatherproof keypad combining outstanding appearance with tremendous resistance to abuse. The keypad contains no moving parts and uses a proprietary piezo electric technology ensuring that the keypad will perform reliably in even the most demanding environments. The

one piece design is rugged and compact, ideal for high traffic indoor and outdoor use.

For maximum flexibility two LEDs (red and green) are user programmable from the software and an announcer beeps with each keypress.
