

LEGIC®

innovation in ID technology

For the programming of LEGIC media (cards, key fobs, etc.) LEGIC offers its partners the ready-made initialisation unit MIMIUS including the software package.

Your advantages:

- no efforts and costs for developing your own programming unit
- simple, clear operation
- can be used with most commonly available PCs or laptop computers

Target group

Developers, operators and system integrators of LEGIC installations.

LEGIC® initialisation unit MIMIUS & MIMIUS PC software

Description

With the initialisation unit MIMIUS and the MIMIUS PC software LEGIC offers you a plug-and-play package for the initialisation and modification of all LEGIC media, including authorisation cards.

The MIMIUS is shipped with integrated power supply, antenna and programming module (MSM-S). The MIMIUS PC software allows the programming of all LEGIC media. A graphic user interface, an editor for easy programming of system and application data and features, such as automatic programming of media, are available to the user.

Operating the MIMIUS and the MIMIUS PC software requires a good understanding of the LEGIC technology. LEGIC® Identsystems Ltd. offers you suitable training.

Minimum PC requirements

- Processor Pentium 100 MHz
- RAM 64 MB
- Hard disk space 10 MB
- Interface RS232
- Monitor VGA, 800 x 600 Pixels
- CD-ROM drive installed
- Operating system Windows 95/NT4.0 or newer Windows versions

Technical data of MIMIUS initialisation unit

- Operating power AC 80 ... 260V
- Operating temperature -25 ... 85 °C
- Dimensions 19,9 x 22,3 x 7 cm
