

Model NV-RJ45A RJ45 to Screw Terminal Adaptor

Screw terminal block
channel pinout

RJ45 male jack
pinout & wire color

Features:

- Male RJ45 to-screw-terminals
- Use with NVT Hubs that have RJ45 video ports
- Heavy duty design assures reliable connections

The NV-RJ45A RJ45 to Screw Terminal adaptor is wired in accordance with the EIA/TIA 568B wiring standard for structured cabling. This is the same standard that NVT uses in all our products. Please refer to these wiring/pinout diagrams for details as to how UTP conductors are landed on the screw terminal side and marked according to each input channel.
