KeyPAC Solo™ Data Sheet

- up to 2000 users
- up to 200 mm reading range
- tamper protected
- door monitoring
- alarm outputs
- lower cost single door access system
- five year guarantee*

The KeyPAC Solo™ is PAC's new standalone reader/ controller. It is available in three different housings:

Universal is suitable for mounting internally or externally.

Standard is ideal for mounting onto standard MK™ back-boxes well as several European makes of back-box.

Vandal Resistant will survive in the toughest of environments.

All three have dual LEDs from programming purposes and a built-in sounder which can be programmed to issue an alarm if a door is left open or forced.

Product guarantees

KeyPAC Solo is encapsulated in a highly durable resin so that it is suitable for interior and exterior use. KeyPAC Solo carries a five year guarantee and KeyPAC cards and tokens carry a lifetime guarantee against electronic failure.

Main operational features

To gain access the user must present a valid ID (identification) device to the reader. KeyPAC Solo will only work with KeyPAC ID devices and not with the older PAC ID devices.

Set/reset feature

You can also use KeyPAC Solo as a secure switch. This feature can be used to turn many types of equipment on and off (e.g. Alarm System).

Reading range: typically up to 200mm.

KeyPAC Solo includes:

1	x	KeyPAC Solo reader/controller unit
10	x	Choice of electronic KeyPAC ID devices (cards or tokens)
2	x	Master KeyPAC cards for programming

Solo uses KeyPAC technology and is only compatible with the new KeyPAC token (featured right) and the KeyPAC ISO thickness card (featured left).

KeyPAC Solo Vandal

The KeyPAC Solo™ (Vandal Resistant) is impact resistant and especially suitable for external use in hostile environments. It is attractively styled in brushed stainless steel with dual LEDs. The Vandal Resistant Solo requires a special screwdriver (part no. 1950) to fit vandal resistant screws (supplied).
KeyPAC Solo Universal

The KeyPAC Solo™ (Universal) has a new stylish ultra-curve ABS housing which is designed to blend seamlessly with 21st century architecture. The universal has dual LEDs and is available in black or white. The screw heads are covered by a 'clip-over' cover which can be replaced easily if the front of the reader becomes damaged.
