

# Smart Mullion Reader

The PAC Mifare® Mullion reader is a contactless Smart Card reader with a stylish as well as functional mullion shape allowing easy installation on door architraves where larger readers will not fit. It can also be mounted directly to metal surfaces, such as door frames and turnstiles, with no diverse effect on the reader's operation, along with back to back mounting without the concerns of false reads from the wrong device.

The Smart mullion reader is a low profile, robust epoxy filled unit that is built to withstand the harshest of environments and operations. It can be installed in new sites or as an upgraded reader to existing proximity access control systems.

The reader incorporates a red/green LED and buzzer that can be configured within the security system to provide visual and audible feedback for confirmation on access control modes.

## Key Features:

- Contactless Mifare® technology
- Mullion style for direct architrave mounting
- Conventional security wiring
- Interchangeable with any existing PAC readers
- Visual and audible feedback
- IP67 standard finish for internal and external applications
- 2 year warranty

## Features & Specification

Description	Smart Mullion Mifare <sup>®</sup> Access Reader
ID Technology	Mifare <sup>®</sup>
Dimensions	H: 140mm W: 45mm D: 32mm
Output Formats	PAC
Weight	135g nominal
Maximum Read Range	Up to 60mm
Environment	IP67 - Indoor / Outdoor weather resistant
Maximum Current Requirements	Normal 80mA Activated 105mA
Cable Distance	0.22mm <sup>2</sup> cable 100m max 0.33mm <sup>2</sup> cable 250m max
Operating Temperature	-10° to +55° C
Operating Humidity	0 to 90% relative humidity non-condensing
Audiovisual Indication	LED and buzzer
Material	Silver and Charcoal two toned plastic
Certifications	CE Mark, Fifteen EU Countries under the R&TTE Directive (EN60950 - ITE Electrical Safety, ETS EN 300 330 - SRD, and ETS EN 301 489 - EMC)

## Ordering Information
