

Encoding at the Edge of your Network

1CH H.264 Network Video Encoder

SPE-101

The SPE-101 is a compact encoder that enables video from an analog camera to be transmitted over an IP network. This allows users to leverage cost savings by utilising existing analog cameras as they upgrade to an IP network based security solution. The SPE-101 utilises highly efficient H.264 compression technology and is ONVIF standard compliant for operation with third-party management platforms. What's more, the SPE-101 is fully compatible with Samsung's license-free Net-I Viewer software which is able to bring network and analog based devices together onto a single platform for the perfect hybrid solution.

- Real-time 30(25)fps at high resolution(4CIF)
- Max.resolution : 704 x 480, 704 x 576(4CIF)
- H.264/MPEG-4/MJPEG multiple codec
- Multiple streaming simultaneously
- ONVIF support
