SECURITY SYSTEM

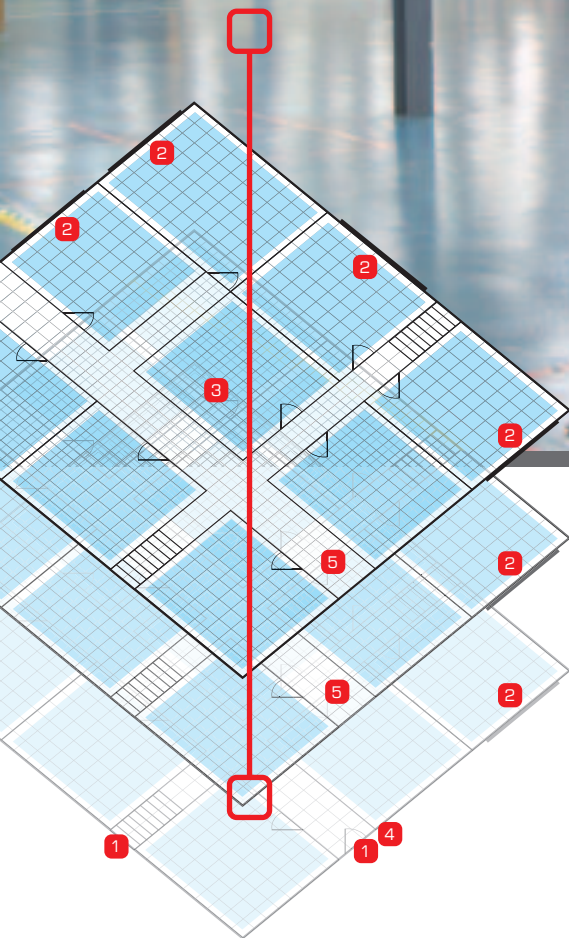

Intelligent reassurance – for your world

- 8 – 264 zones
- Flexible and expandable
- Intelligent technology
- Exceptional reliability
- Scroll and select menus
- Fully compliant

# Flexible security for fl

The innovative and reassuringly straightforward Scantronic 95 has the capacity to secure your entire premises however large – from commercial and industrial buildings to shops, stores and large residential properties.

## Working securely

The system's flexibility allows it to be precisely tailored to the way you run your business – however varied your needs. The host of peripherals enables commercial, industrial, retail and public buildings, such as schools or local government offices, to apply specific settings to suit their security needs. This means that you can secure the entire premises, or opt to protect individual buildings, rooms or zones – all in a single, user-friendly package that is future-proofed to grow as and when you do.

- 1 KEYPADS AND/OR KEY FOBBS AT CHOSEN ENTRY POINTS
- 2 ROLLER SHUTTER SENSORS FOR SPOT PROTECTION
- 3 LONE/NIGHT WORKER PROTECTION
- 4 FRONT-OF-HOUSE PANIC BUTTONS
- 5 ADVANCED TECHNOLOGY DETECTORS FOR FEWER FALSE ALARMS

- Installed as one flexible and expandable system
- Adapts to variable security arrangements
- Remote servicing and maintenance
- Multi-use to protect additional and temporary buildings and spaces

# flexible needs

**FULL SETTING:** SET/UNSET THE ENTIRE WORKPLACE OR HOME WHEN LEAVING OR RETURNING (4-6 NUMBER CODE OR KEY FOB)

**USER CODES:** UP TO 100 PEOPLE CAN HAVE THEIR OWN PERSONAL PIN CODE TO SET (OR UNSET) ALL OR PART OF THE SYSTEM

**SPLIT SETTING:** SECURE SPECIFIC AREAS, SUCH AS OFFICE FLOOR SEPARATE TO FACTORY, BEDROOMS SEPARATE TO LIVING AREAS

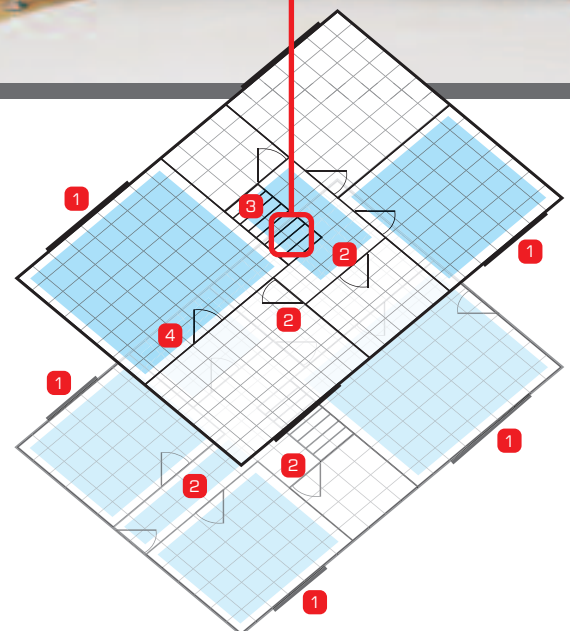

**EXTERNAL BUILDINGS:** ALARM INDIVIDUAL BUILDINGS ON SITE OR WITHIN RESIDENTIAL GROUNDS

## Living safely

Scantronic 95's flexibility and dependability is ideal for larger homes. Specific rooms, floors, annexes, garages and outbuildings can be secured individually or all together, for a perfect fit with how you live your life. A home office can be separately protected, bedrooms can have their own keypad controlling the rest of the house, or staff quarters can be made safe independently.

- Easy scroll and select menus
- Unobtrusive good looks
- Minimal disruption during installation
- Expands to secure new extensions or additional structures
- Battery back up in case of mains failure

- 1** WINDOW VIBRATION SENSOR
- 2** DOOR CONTACT
- 3** INTERNAL MOVEMENT DETECTOR
- 4** KEYPAD IN BEDROOM FOR SPECIFIC AREA CONTROL

# Technical Specification: Scantronic 95

|  |                                    |
|--|------------------------------------|
| EN grade / PD6662:2004                 | 3                                  |
| On-board zones                         | 8                                  |
