

A5 23dBi Integrated EXTREME

SKU: SILA5EXi

Features

- ≻54Mbps
- ➤ Five operational modes
- ➤IP Router + NAT
- ➤ Operates at -50° to +70° C
- ➤ Built-in lightning protector
- ➤IEEE802.11a
- ➤ Point-to-Point , Point-to-Multipoint
- ➤WDS (AP + Repeater)
- ≻WEP, WPA, WPA2
- ➤Test Link
- ≻PoE
- ➤ LED displaying signal quality

■ What is the A5 23dBi EXTREME?

A5 23dBi Integrated EXTREME is a new high-speed wireless BRIDGE integrated with a 23dBi antenna, aimed at last-mile broadband wireless access (BWA) links and campus data networks that need to send large amounts of data over the air.

The A5 23dBi Integrated EXTREME has been specially designed for harsh outdoor environments and operates at temperatures as low as -50° and as high as +70° C.

Operating at a 5GHz frequency, at distances of up to 20km, the A5 23dBi Integrated EXTREME supports point-to-point and point-to-multipoint configurations for connecting two or more buildings without incurring the expense of leased lines or fibre runs. The A5 23dBi Integrated EXTREME offers fast return on investment while providing optimal network performance.

The advantages of the A5 23dBi EXTREME

- Specially designed for harsh outdoor environments, built-in Lightning Protector, and integrated 23dBi antenna means that your network will remain stable and reliable.
- Simple network structure. Easy to install. Power over Ethernet functionality requires only a single Ethernet cable between the LAN and the A5 23dBi Integrated EXTREME for sufficient power.

Antenna 23dBi Panel antenna			
LAN/WAN One 10/100BASE-T (RJ-45) LAN Port			
Default button Yes			
Power 48VDC/1A Compliant to IEEE802.3af			
Channel USA (FCC): 5.15GHz 5.35GHz;			
(Country Dependent) 5.725GHz ~ 5.825GHz Europe (ETSI): 5.47GHz 5.850GHz			
China: 5.725GHz 5.85GHz			
RF output power 18dBm ±2dBm			
Power Consumption 450mA@48v			
Sensitivity -65dBm@54Mbps			
Dimension 35.3cm(L) x 35.3cm(W) x 14.2cm(H)			
Weight 4.2Kg

A5 EXTREME Product Information

A5 23dBi Integrated EXTREME

Wireless Outdoor BRIDGE

◆Integrated 23dB antenna. Supports POE and 48V DC. Works at 5.8GHz with security. 54Mbps. Point to point, point to multipoint. Operates at temperatures between -50 to 70°C SKU: SILA5EXi

A5 BRIDGE EXTREME

Wireless Outdoor BRIDGE

◆ External port with N Type connector. supports POE. Work at 5.8 GHz with security. 54 Mbps. Point to point, point to multipoint. Operates at temperatures between -50 to 70°C SKU: SILA5EXBR
