By employing the advanced technology with sophisticated handling and better feature, Tokina has succeeded in bringing to market the high quality and performance camera lenses that break previous concept.

Tokina makes the industrial application lenses for the world famous optical and electronics companies. As the CCTV lenses have become complex, Tokina has kept up to date with their demanding requirement. So, you can get the "today" high performance zoom and vari-focal lenses to meet your business needs.

Tokina uses aspherical glass elements in many of its Varifocal lenses. Thus, Tokina has succeeded in producing advanced quality and supporting high sensitivity cameras.
