

Verint RP 4000 Series Digital Video Recorders

For Mobile Transportation Applications

Verint® RP 4000 Series Digital Video Recorders provide robust and reliable video surveillance for buses and light rail.

The RP 4000 Series delivers images from up to 4 cameras on the same vehicle at a rate of up to 30 Frames Per Second (FPS) and provides motion detection for each camera input.

The RP 4000 Series interfaces with key vehicle management data or J-1708 to superimpose data about the vehicle and its location onto captured video images. The RP 4000 Series also offers GSM connectivity for remote access or video transmission.

Verint's digital technology provides secure access to recordings and enables images to be exported to a variety of output media. Our intuitive management software enables authorized personnel to quickly review images and events of interest.

The RP 4000 Series is part of Verint's comprehensive suite of mobile video solutions for transportation systems.

Verint. Powering Actionable Intelligence.®

Verint Systems (NASDAQ: VRNT) is a leading global provider of analytic software-based solutions for communications interception, networked video, and business intelligence. Verint solutions transform voice, video, and text into *actionable intelligence* – timely, mission-critical insights for achieving strategic goals.

Since 1994, Verint has been committed to developing innovative solutions that help our customers achieve their most important objectives. Today, more than 1000 organizations in over 50 countries use Verint's actionable intelligence solutions to enhance security, boost operational efficiency, and fuel profitability.

KEY FEATURES

- ✓ 4 BNC video inputs for color or black-and-white cameras
- ✓ 2 BNC video monitor outputs
- ✓ 2 digital video and 6 alarm inputs
- ✓ 30 FPS
- ✓ Motion detection for each camera
- ✓ Playback software for MS Windows 2000 Professional or XP Professional
- ✓ Export images to DVD, CD with Viewer software and VHS via analog video output
- ✓ Multi-user management, including password protection
- ✓ GSM connectivity option
- ✓ J-1708 and CAN interfaces for superimposing video

Verint RP 4000

Designed for highly reliable operation in demanding transportation environments, Verint Mobile Video Solutions readily address the challenges of continuous vibration, extreme temperatures, and frequent power fluctuations.

SAFE ON THE MOVE™

Verint helps transportation providers protect people and property, refute false claims, and reduce frivolous lawsuits.
