

1-Bay Small Form Client Viewing Station

Integrated with Milestone XProtect® Smart Client

Economical and Performance Driven Small Form Client Viewing Station

The VSS-MS-ISF-W small form factor can deliver the performance needed at an affordable price. This slim and efficient client viewing station comes equipped with the latest Intel® 9th Generation Core™ i7 processor, which provides nearly 20 percent more computing potential than previous generations, and can power through any task.

The VSS-MS-ISF-W is enabled with fast GPU computing with a NVIDIA® Quadro® graphics card for high end video processing. Video and critical data can be stored with ease with up to 14TB of storage on a video grade SATA hard drive and fast start up and application loading is enabled by a dedicated 256GB operating system SSD.

Keep Your Hard Drive

With Video Storage Solutions' Keep Your Hard Drive warranty, your sensitive data and hard drive never leave your control. It also helps you comply with current data privacy regulations and internal company policies by ensuring sensitive information on your hard drive is not compromised, mitigating the risk of expensive civil litigation if confidential customer data or intellectual property were to be exposed.
