HSA3000

100% wirefree security alarm system

Get protected and wire free connected

easy install

- Everything needed is in the box
- Can be fitted in less than an hour

Yale®

100% wirefree security alarm system

Easy-to-install, easy-to-use

It's the new approach to personal home security. With no wires between components, the alarm is easy to install, there's no damage to home decor or carpets to lift. Components use a high quality radio frequency to communicate and clever electronics to reduce power consumption to give battery lives of up to 2 years. Protecting you and your family, the HSA3000 is easy to use by everyone.

Step 1

Take the components out of the box and check you have everything. Fit the batteries to all the components and program them into the system.

- Up to 20 different accessories can be connected allowing you to expand your system

Step 2

Fit the door/window contact to the most frequently used door or main entrance in the house. Choose a room for the PIR and fit into the corner.

- 433 Mhz wirefree communication minimises interference from other radio signals and 16 million unique code combinations prevent hacking

Step 3

Fit the siren to an external wall.

- Weatherproof siren with 104 dBA sound output and built-in strobe light

Step 4

Make sure it's working correctly by setting and un-setting the system with the remote control. Your system is now ready for use.

- User adjustable entry and exit delay times and alarm sound time
- System is triggered if it is vandalised or tampered with
- Low battery indication

Siren/strobe

Remote controller

Passive infra-red (PIR) detector

Door/window contact

System includes: 1 x siren/strobe, 1 x remote controller, 1 x PIR, 1 x door/window contact, all batteries and fixings, 2 x warning window stickers, instruction book and a 1-year guarantee with optional extended cover.

HSA3000

The Yale service commitment For more than 150 years Yale has been the world leader in the development and manufacture of security products and systems to the highest standards. The Yale 100% wirefree communicating system is backed by a 12 month guarantee. Customers are offered advice on installation, **seven days a week**, from fully trained personnel.
