Dahua Donated Smart Interactive Whiteboard to FEB UGM to Support Education in Indonesia

April 2, 2024 / Yogyakarta, Indonesia. Dahua Technology Indonesia has donated a Dahua DeepHub Smart Interactive Board to the Faculty of Economics and Business (FEB) at Universitas Gadjah Mada (UGM), demonstrating the company's commitment to support the advancement of education in Indonesia.

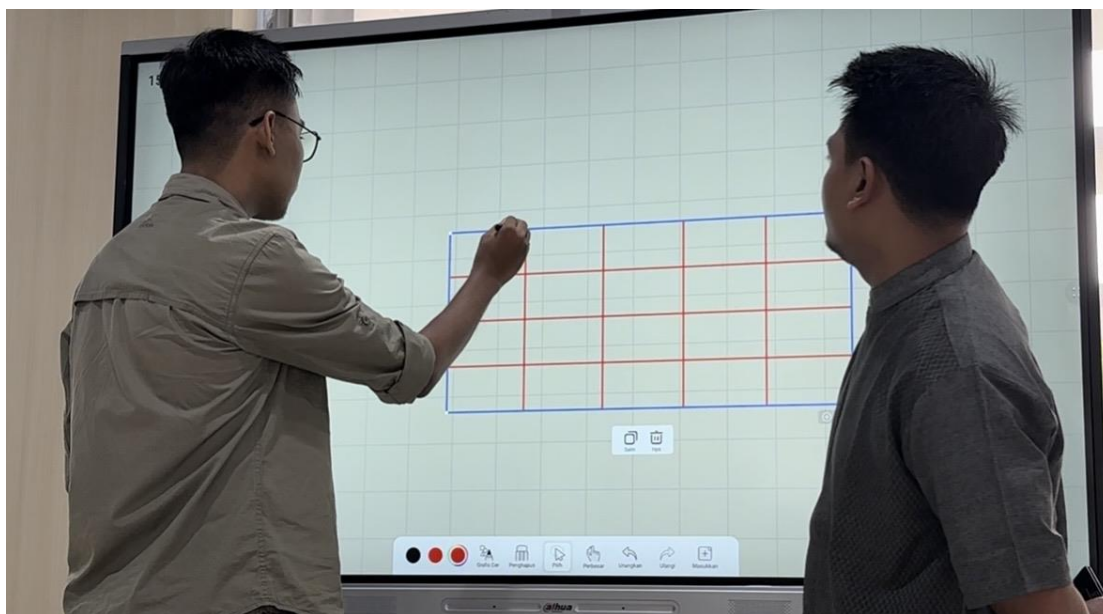

The Country Director of Dahua Technology Indonesia, Royce Ouyang, expressed his gratitude for this charitable opportunity during the handover event held at the Alumni Hall of FEB UGM on March 14. "We are pleased to contribute to the development of education in Indonesia. We hope this 75" Dahua DeepHub Smart Interactive Whiteboard can enhance students' learning experience, enabling them to be more interactive and innovative in class and be in line with the latest developments abroad."

The 75" Dahua DeepHub Smart Interactive Whiteboard is a valuable cutting-edge device. Its package includes the smart interactive whiteboard, plug-in USB camera, 11th generation i5 processor 8GB+256GB, activated Windows 11 Pro, as well as a mobile stand and wireless screen sharing cable. This intelligent device is equipped with an artillery of sophisticated features, including a 4K screen, 8 quick access buttons, fast charging, fast file sharing, the ability to switch between Android and Windows, high-resolution camera, wireless screen sharing with various devices, and other advanced functions that enable smoother and more collaborative interaction in the classroom.

The Dean of FEB UGM, Prof. Dr. Didi Achjari, M.Com., Ak., CA, expressed his appreciation for the generous donation, stating that the device will not only bring a more collaborative learning experience for their students, but also support various educational activities, research, and community service at FEB UGM. "We are committed to utilizing it as best as possible to improve the quality of education in our environment," he said.

"The support of advanced devices such as the Dahua DeepHub Smart Interactive Whiteboard facilitates FEB's academic community in adopting innovative teaching methods. Thus, it can improve student absorption and prepare them to face future challenges," said Gumilang Aryo Sahadewo, SE., M.A., Ph.D., Vice Dean of FEB UGM. He also stated that the use of the Dahua DeepHub Smart Interactive Whiteboard is expected to enhance the interaction between lecturers and students and facilitate collaboration in the learning process. In addition, this equipment can also support the development of innovative and technology-oriented curricula. "With this equipment, we hope that FEB UGM can continue to strengthen its existence as a leading educational center that innovates and is competitive," he added.

With the donation of Dahua DeepHub Smart Interactive Whiteboard to FEB Universitas Gadjah Mada, Dahua took a positive step towards strengthening the relationship between the industrial sector and education, empowering the youth of today and enabling a smarter society and better living.
