DSEi 2011 Showcases Latest Equipment And Systems For Defence And Security Industry

Published on 14 Sep 2011

With over 1,300 exhibitors, DSEi is the world's largest integrated defence and security expo

The Defence and Security Equipment International (DSEi 2011) is the world's largest fully integrated defence and security exhibition. DSEi provides a unique platform to present your latest equipment and systems to the world's defence and security industry. DSEi provides you with the opportunity to develop international relationships and generate new business opportunities with companies of all sizes. The exhibition is scheduled to take place in the ExCeL, London, United Kingdom 13 to 16 September 2011. More than 1280 exhibitors from over 98 countries, including major defence giants with large country group pavilions exhibited at DSEI 2009. DSEi 2011 will be even bigger.

South Africa will be participating officially at the DSEI 2011 in the form of a National Pavilion. The Department of Trade and Industry (the dti), will be represented by Lucas Ndema: Director: Aerospace and Defence and Samuel Maboane, Assistant Director: Export Marketing. The dti has booked a total of 459 square meters space on which 23 approved exhibitors will display their defence related products.
The following South African products will be showcased at DSEI 2011:

- Body Armour plate, vehicle armoursets, shields
